Applicant's arguments filed 6/19/03 have been acknowledged and claims 21-29 and 32-38 have been determined to be in condition for allowance.

Claims 30 and 31 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention.

Claims 30-31 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention.

The term "large" spinel is indefinite. Further what kind of spinel. It is the examiner's position that this can be corrected by deleting "large spinel" and adding magnesium spinel.

The term "graulates" is spelled incorrectly. It would appear applicants mean granulates in claim 30.

The applicants' usage of numerals referring to figures, while proper for international applications, would not appear to be proper format for US patent practice. Applicants are respectfully requested to delete these numerals from claim 31.

It is expected that upon making these corrections this application would be in condition for allowance.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
